TO THE READER

I wish to take this opportunity to thank all the members of the Hirstein family who have co-operated in making this publication a success. It has taken time and effort but I feel it has been time well spent and hope the records will prove interesting to the readers.

In some cases complete records were not given, therefore blank spaces are found throughout the book. Since there has been a lot of copy work done in gathering this information, there are, without doubt, some mistakes in spelling, dates, etc. However, the errors are unintentional and when such are found, I would appreciate it if the finder would notify me so that corrections can be made if revisions are made in later years. In the cases where fractional numbers are used, information was received after the numbering was done and in order to place them in their proper place they were added as fractional. You will notice that some "family numbers" have been omitted due to an error in arrangement of records.

There are now in our history, a total of 366 descendants of John Hirstein who was born in 1771 in Germany. As you will read in a footnote under one family number, there are yet other relatives living in Europe, but due to conditions there at the present time, it is impossible to obtain complete records. In corresponding with some of them, we find they are in deep need of the very essentials of living. We who are here in America must feel very thankful that we can enjoy the many things that we have today.

I would also like to ask that some member of each family take it upon themselves to notify me whenever there are births, marriages, or deaths, so that a record may be kept for use when revision is made.
